The commission shall, from time to time, recommend to the appropriate public officials programs for public structures and improvements and for the financing thereof.

It shall be part of its duties to consult and advise with public officials and agencies, public utility companies, civic, educational, professional, and other organizations, and with citizens with relation to the protecting or carrying out the law.

All public officials shall, upon request, furnish to the commission, within a reasonable time, such available information as it may require for its work. The commission, its members, officers, and employees, in the performance of their functions, may enter upon any land and make examinations and surveys and place and maintain necessary monuments, and marks thereon.

Sec. 2-111. General powers of commission.

In general, the municipal planning commission shall have such powers as may be necessary to enable it to fulfill its functions, promote municipal planning, or carry out the purposes of this article.

Sec. 2-112. Planning commission to approve plats.

Whenever the planning commission shall have adopted that sort of a master plan relating to the major street system of the territory within its subdivision jurisdiction or part thereof, and shall have filed a certified copy of such plan in the office of the county register of deeds of the county, in which such territory or part is located, then no plat of a subdivision of land within such territory or part shall be filed or recorded until it shall have been approved by the planning commission and such approval entered in writing on the plat by the chairman or secretary of the commission.

Sec. 2-113. Regulations governing subdivision of lands; bond to secure improvements.

Before exercising the powers referred to in section 2-112 the planning commission shall adopt regulations governing the subdivision of land within its jurisdiction. Such regulations may include provisions as to the extent to which streets and other utility mains, piping, or other facilities shall be installed as a condition precedent to the approval of the plat. The regulations or practice of the commission may provide for a tentative approval of the plat previous to such installation; but any such tentative approval shall be revocable and shall not be entered on the plat. In lieu of the completion of such improvements and utilities prior to the final approval of the plat the commission may accept a bond with surety to secure to the municipality the actual construction and installation of such improvements or utilities at a time and according to specifications fixed by or in accordance with the regulations of the commission. The municipality is hereby granted the power to enforce such bond by all appropriate legal and equitable remedies.

Sec. 2-115. Approval or disapproval of plats; procedure; effect.

The planning commission shall approve, modify or disapprove a plat within sixty (60) days after the submission thereof to it; otherwise such plat shall be deemed to have been approved, and a certificate to that effect shall be issued by the commission on demand. However, the applicant for the commission's approval may waive this requirement and consent to an extension of such period. The ground of disapproval of any plat shall be stated upon the records of the commission. Any plat submitted to the commission shall contain the name and address of a person to whom notice of a hearing shall be sent; and no plat shall be acted on by the commission without affording a hearing thereon. Notice shall be sent to the said address by registered mail of the time and place of such hearing not less than five (5) days before the date fixed therefor. Similar notice shall be mailed to the owners of land immediately adjoining the platted land, as their names appear upon the plats in the county auditor's office and their addresses appear in the directory of the municipality or on the tax records of the municipality or county. Every plat approved by the commission shall, by virtue of such approval, be deemed to be an amendment of or an addition to or a detail of the municipal plan and a part thereof.

Approval of a plat shall not be deemed to constitute or affect an acceptance by the public of any street or other open space shown upon the plat. The planning commission may, from time to time, recommend to council amendments of the zoning ordinance or map or additions thereto to conform to the commission's recommendations for the zoning regulations of the territory comprised within approval subdivisions. The commission shall have power to agree with the applicant upon use, height, area or bulk requirements or restrictions governing buildings and premises within the subdivision, provided such requirements or restrictions do not authorize the violation of the then effective zoning ordinance of the municipality. Such requirements or restrictions shall be stated upon that plat prior to the approval and recording thereof and shall have the same force of law and be enforceable in the same sanctions and penalties and subject to the same power of amendment or repeal as though set out as a part of the zoning ordinance or map of the municipality.
